- It is the player/parent responsibility to collect graphic files and send to the Fundraising Coordinator. **Please include what Sponsorship Level size the graphic is for. It is helpful to have one sponsorship sheet per sponsor that clearly shows the Ad purchased, and fees collected.**
- To ensure your graphics meet print requirements download the specs here: [Ad Size Specs](#). Acceptable file types are: .JPG .PNG .PDF .PSD @ 300 dpi.
- If your sponsor indicates to use a previous year graphic, you are responsible for reviewing what was published in the prior year and emailing Fundraising Coordinator that you have reviewed the previous year graphic and approve.

BANNER INFORMATION:

In the first year that the banner must be produced, \$100 of the \$500 is used for production. This allows \$400 to player fees. In year two and after, the player can be sponsored for \$400 for continued display of banner.

NOTE - If a player collects more sponsorship funds than are required for their total player fees, a player credit will be held on account for this player to use the next season if needed. Player credits may be applied to the next season's player fees only and are non-transferable between any other players. Player credits will not be accepted towards any player fees for a future season beyond this.

Please supply a high resolution PDF (preferably in vector format) which is sized correctly (8' wide X 4' high). If there are any questions, please call MinutePress (208-765-6528). MinutePress has a full range of graphic design services should you need any assistance developing banner size graphics.

Please email all CDA Press Insert & Field Banner artwork files, along with the information relating to the specific team, player name and sponsorship funds associated with the advertisement to:
